

BATHURST 12 HOUR

Terms and Conditions of Fuel Supply:2027 Bathurst 12 Hour

1. Fuel Supply Registration

All Teams must register with RaceFuels prior to the Event via the PDF sent through Event Management or online at [https://racefuels.info/registrations/12-hour- registration/](https://racefuels.info/registrations/12-hour-registration/)

All entries will be invoiced pre-event for 1,500litres of Elf Core50.

Credit cards lodged on the fuel registration will be used to obtain full payment within 7 days of event commencement. Tax receipts will be sent to the provided email after payment has been received.

Fuel will not be supplied until payment in full has been received.

RaceFuels will provide credit for any unused fuel within 14 days post event. Payment of credit will be to the credit card lodged on the fuel registration form.

2. Control Fuel

All Classes are required to use Elf Core 50 as supplied by RaceFuels.

3. Fuel Supply During the Event

RaceFuels will supply your Team with the volume of fuel required for the race. There is no need to pre-order a fuel volume in advance. You will only be charged for the fuel you receive.

Fuel will be delivered Competitors in sealed 200 litre drums. Each Competitor must have their own pump to transfer fuel to any overhead refuelling tower.

During the race your Team does not have to purchase a 200 litre drum at every transaction. 50 litre drums of Elf Core 50 are also available.

Once a Crew Member has removed the cap seal of a drum, the Team has purchased the contents of the drum.

It is the Team's responsibility to ensure that ALL Crew Members understand not to remove the cap seal until the fuel is required by the Team.

4. Fuel Ordering Process

Fuel will be ordered by Teams via SMS text message or WhatsApp. To order fuel text both Team's Car Number, Garage Number and the amount of fuel required (eg. 200L) to the provided RaceFuels number.

Fuel orders will only be accepted via SMS text message or WhatsApp message. Please do not attempt to call or email fuel orders.

After initial delivery, fuel will only be supplied in exchange for an empty drum. After placing your order, have your empty drum ready for collection.

5. Fuel Returns

RaceFuels will credit back the full amount for returned **sealed** drums.

RaceFuels will collect remaining fuel in open drums (without a cap seal) at the conclusion of the event. RaceFuels will not credit or refund unwanted fuel in opened drums.

To return fuel, text 'Return' and either Full or Part-Drum with Team's Car Number and Garage Number to the provided number from RaceFuels. An authorised Team Member is required to be available during the fuel return process. A return receipt will be issued and will require a signature.

Return requests end promptly at 20:00

Any fuel left post-event that has not been lodged as a return with RaceFuels during the allocated time, will be surrendered without credit or refund. Clean up charges may apply to teams who leave fuel or waste product behind.
